THROUGH THE MOUNTAINS

Water has come through

THROUGH EVERY "STORM" SINCE 1837

The "Cape Sock" will be familiar to all shipowners. The clipper sailing to Australia's shipping ports, now lies at Falmouth Harbour, Cornwall, being used as a coast mining ship.

Like a sturdy ship, the Union Bank has come through every "storm" . . . every war . . . rate and stigma.

There are three tests of the strength and stability of a Bank: two of them are *war* and *trade depression*, both of which during the economic life of the nation have balanced the scale in times of *panic*. The confidence of voters and the savings of thousands of people, so recently invested, are placed in jeopardy.

The Union Bank has met these tests—the "invasion" of the gold panies of 1852, wars and depressions—since it was founded a century ago—and has emerged unscathed.

In the light of past experience it is obvious why an enterprising depositor with the Union Bank is a safe and reliable investment.
